**How The US Navy Lost The Shipbuilding Race to Chinese Navy**

Oct 25, 2021 · The decades of U.S. shipbuilding failures were long masked by the absence of any near-peer fleet. But today, the Office of Naval Intelligence (ONI) has concluded that China has the largest navy in the world—by the end of 2020, it had an estimated 360 ...

**Naval history of Japan - Wikipedia**

Naval battles of a very large scale, fought between Japanese clans and involving more than 1000 warships, are recorded from the 12th century. The decisive battle of the Genpei War, and one of the most famous and important naval battles in pre-modern Japanese history, was the 1185 battle of Dan-no-ura, which was fought between the fleets of the Minamoto and Taira clans.

**People's Liberation Army Naval Air Force - Wikipedia**

Overview. Historically, the PLANAF's main role has been to provide the navy's warships with air defense coverage. Part of the coastal defense doctrine was to have naval aircraft protecting the ships, hence the reason why many PLA ships of the 1960s–70s lacked long range anti-aircraft missiles or artillery. During the Sino-Vietnamese War, the PLANAF carried out many successful bombing and...
